Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: We discussed the latest proposed amendment, however, Examiner noted that wherein, "determining whether the at least one object warrants further decomposition" also, "synthesizing a document template containing the at least one design attribute and the at least one design sub attribute" do not appear to have support in the specification. In conclusion we agreed that upon further amendments to the claims in light of the specification, Examiner would further reconsider this application for patentability .
